

Learn how to edit ERD shapes

- To **manually customize this ERD**:
- Double-click on any text in an entity shape and **add/edit text** by typing.
  - Click on an entity shape and **toggle the amount of fields** using the advanced shape bar at the top of the canvas.
  - Add and remove lines** to show relationships between entities.
  - To **update cardinality**, click on a line and then click "Endpoint" on the properties bar at the top of the canvas.

- To **automatically create your own ERD**:
- Click "[Import Data](#)" in the Entity Relationship shape library to the left of the canvas. (Hold Shift + ⌘ or Ctrl, then click)
